Power Standards Lab PQP-CT4-00 PQube Embedded Energy and PQ Kit

If you've got an embedded application, this is the perfect kit for evaluating PQube energy and power quality options.

- Plug-in module has integrated CTs up to 20-Amp. Just pass wires through openings.
- Maximum conductor diameter - 0.34in (8.6mm)
- Crest Factor (peak measurement) 3.5 times nominal CT rating.
- Four channels of current at ±0.1% rdg ±0.1% FS
- Automatically e-mails whenever a disturbance occurs, complete with GIF graph pictures and Excel© compatible CSV attachments
- Update setup, firmware via e-mail. Check meter readings via e-mail, too!
- SNTP for synchronizing to UTC time standard (2 second absolute accuracy)
- More current? Look at the PQP-CTE1 kit. Don't need current and energy? Look at the PQP-ETH1 kit.

PQP-CT4-20A-00 Package includes:

Description	Model Number
PQube AC Monitor	PQube-02-0000
PS1 Power Supply Module	PS1-100~240-00
ETH1 Ethernet Module	ETH1-10T-00
CT4 Current Sensing Module	CT4-20A-00
TH1 Temperature - Humidity Probe	TH1-80C-00
THC Extension cable for T-H Probe	THC-2M-00
DRK DIN Rail Kit	DRK-270-00
PQube CD-ROM	CDR-PQube-00
